

## Fuel price guide

This leaflet is prepared by the Caravan Club as part of its services to members. The contents are believed to be correct at the date of publication and are intended as a guide to average prices charged in each country. Price information is gathered over a two week period and may take a further week before being published. Please use these prices as a **guide**.

Country	Leaded or Lead Replacement Fuel	Currency	Unleaded	Diesel	Credit Card Payment Accepted

UK		Sterling	1.36 (95 Octane) 1.43 (98 Octane)	1.40	Yes

Prices shown are per litre in local currency.

\* In most countries Lead Replacement Petrol already contains the necessary additive but in Austria, Germany, some parts of the Netherlands and Switzerland a lead substitute additive "Benzin additive/ersatz blei" can be bought at the petrol stations and added to the fuel tanks of cars which do not run on unleaded petrol. We have been advised that 10ml will treat 10 litres of petrol. It is the same additive as used in the UK.
